ARE YOUR COMPLIANCE SYSTEMS BUILT TO LAST?

True compliance isn't about quick fixes – it's about embedding everyday practices that create confidence, consistency and lasting results.

At Holistic Management, we support services to move from reactive to proactive, making compliance an embedded part of your service culture rather than a last-minute scramble.

Our compliance audits are practical, supportive and focused on real outcomes – helping your team understand not just what is required, but why it matters and how to implement it sustainably.

Book your compliance audit today and feel confident knowing your service is prepared for a spot check or Assessment & Rating visit.

WHAT TO EXPECT FROM AN AUDIT

Audits don't have to be stressful. With the right preparation, clarity and support, they become a powerful opportunity for growth and improvement.

At Holistic Management, we work alongside your team to build understanding, confidence and embedded practices – so audits are no longer something to fear, but a chance to strengthen your service and showcase your quality.

Holistic Management
AND CONSULTANCY

BEFORE THE AUDIT: PREPARATION IS KEY

Before your audit, we begin with a discovery call to clearly identify your service's priorities and key focus areas for the audit. This ensures the process is targeted, relevant and aligned with your service's needs.

We then conduct a comprehensive review of your QIP, documentation and policies, ensuring they accurately reflect current practice and are up to date across all National Quality Areas. This process provides clarity, identifies strengths and gaps, and supports your team to feel confident and prepared ahead of any audit, spot check or Assessment & Rating visit.

DURING THE AUDIT: OBSERVATION & DISCUSSION

During the audit, a Holistic Management consultant will spend time within your service observing practice, reviewing documentation and evidence, and engaging in professional conversations with educators and leaders.

This process provides a valuable opportunity to confidently demonstrate how your service philosophy, values and systems are embedded into everyday practice. Our approach supports your team to articulate the why behind what you do, ensuring your strengths are clearly visible and authentically represented.

EVIDENCE REVIEW: SHOW, DON'T JUST TELL

Holistic Management will look for clear alignment between your documentation, learning environments and professional conversations across the service.

We support you to ensure your QIP, planning cycles and team reflections clearly demonstrate not only how you meet the National Quality Standard, but how your practices are embedded, reflective and moving towards Exceeding outcomes.

POST-AUDIT: FEEDBACK & RESULTS

Following your visit, you will receive detailed feedback and a comprehensive report outlining practical recommendations across all 15 National Quality Standards and the three Exceeding themes. The report is aligned to NQA1–NQA7 and provides clear insight into your service's strengths, areas for growth, and opportunities to strengthen embedded, reflective and collaborative practice.

At Holistic Management, we view audits as a learning opportunity – a chance to celebrate what's working well and use practical recommendations to inform future goals, continuous improvement and long-term success.

HOW HMC HELPS: FROM STRESS TO STRATEGY

We help you prepare, document, and present your service with confidence.

Our tools, mentoring, and audit preparation systems are designed to turn compliance into clarity.
